Allowable Subject Matter

2. The following is an examiner's statement of reasons for allowance: the prior art of record fails to teach or reasonably suggest: coupling an electrode of a lead to a medical device using an adaptor, wherein lead comprises a plurality of electrodes, wherein the adaptor comprises a body comprising a lumen defining an inner lumen surface and a electrical connector along an outer surface of the body, wherein the electrical connector comprises a electrical contact key along the inner lumen surface of the lumen of the body, wherein lead connector located on the proximal end of the lead extends along a longitudinal axis and comprises a plurality of connector pads electrically isolated from one another and distributed circumferentially around an outer surface of the lead connector such that a plane perpendicular to the longitudinal axis of the lead connector intersects with more than one of the plurality of connector pads, wherein each of the plurality of connector pads is electrically coupled to a different electrode of the plurality of electrodes of the lead than the other connector pads; selecting an electrode of the

Art Unit: 3762

plurality electrodes of the lead by rotating the lead connector and the adaptor about the longitudinal axis relative each other such that the electrical contact key of the electrical connector of the adaptor is aligned with the connector pad of the plurality of connector pads corresponding to the selected electrode; and inserting the lead connector into the lumen of the adaptor after selecting the electrode, in combination with the other elements in the claims.

3. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
